ACADEMIC PROJECTS

Textile Sales Analysis Dashboard

10 Days

- Built an interactive Power BI dashboard using DAX measures and data modeling to analyze revenue, orders, and top-selling products with dynamic filters, identifying business trends and driving data-driven decisions.

Semi-automated Analytics System

25 Days

- Developed a semi-automated analytics system using Python, Flask, SQL, and Excel, integrating Power BI dashboards with a backend database to enable business monitoring, trend analysis, and reporting automation.

BEAUTIFY-NET - A Decentralized Beauty Service Platform

50 Days

- Developed Beautify-Net, an AI-powered beauty service platform featuring GPS-based beautician discovery, personalized recommendations, and real-time booking to enhance customer experience.

HotelRevAI

40 Days

- Built HotelRevAI, a Power BI revenue analytics solution using data modeling and DAX measures to analyze booking trends, occupancy rates, and revenue performance with forecasting capabilities.

INTERNSHIP EXPERIENCE

Data Analyst Intern, LBV Automation

90 Days

Chennai, Tamil Nadu

- Designed and built semi-automated data pipelines and a reporting system using Python, Pandas, and MySQL, automating data ingestion, validation, and visualization workflows while ensuring 100% data integrity to support business decision-making.

Analyst Intern, Infosys Springboard Virtual Internship 6.0, Infosys

40 Days

Chennai, Tamil Nadu

- Completed the Infosys Springboard Virtual Internship 6.0, gaining practical experience in data analytics, business intelligence, and analytical problem-solving through structured, industry-oriented project development.

Data Analyst & AI Intern, Novitech R&D Pvt. Ltd.

60 Days

Chennai, Tamil Nadu

- Completed dual internships in Data Analyst and AI tracks, delivering hands-on machine learning and analytics outcomes.
